## What is a Community Resource Officer (CRO)?

We are YOUR direct link to the Norfolk Police Department.

We attend Civic League Meetings as well as community events to hear the voice of each community.

We share crime stats and coordinate enforcement with other city divisions (Codes Enforcement, Parks & Rec, and Patrol).

## Broken Windows Theory

In criminology, the broken windows theory states that visible signs of crime and civil disorder create an urban environment that encourages further crime and disorder, including serious crimes. The theory suggests that policing methods that target minor crimes, such as vandalism, loitering, public drinking and trespass, help to create an atmosphere of order and lawfulness.

A successful strategy for preventing vandalism is to address the problems when they are small. Repair the broken windows within a short time. Vandals are much less likely to break more windows or do further damage. Clean up the sidewalk every day, and the tendency is for litter not to accumulate, or for the rate of littering to be much less. Problems are less likely to escalate, and thus respectable residents do not flee the neighborhood.
