PENALTY:\$ _____ **+INTEREST:**\$ _____ Subtotal: _____

TOTAL TAX DUE: _____

I hereby certify that the figures shown on this form are correct: _____

Signature

See below for information on how to complete this form.

Hotels -complete the first line with the number of rooms rented for the reported month. On the second line take the number of rooms rented and multiply by \$3.00 and enter the total.

EXAMPLE- # of Hotel rooms rented: 30.00

Hotel Tax Due(\$3.00 per **Room** per night): 30 x \$3.00 per night = \$90.00

In the Total Tax Due line enter \$90.00

For online filing using the Eservices portal (using the example above)- enter the number of rooms let 30.00 and the system will return \$90.00 due.

Short Term Rentals (STR) complete the third line with the total number of bedrooms in the rental(for tax purposes it does not matter if the bedroom was used during the stay). Multiply the total number of bedrooms by the number of nights rented for the reported month. Multiply that number by \$3.00 and enter the total on line 4.

EXAMPLE- STR # Bedrooms x # Rental Nights: 3 Bedrooms x 30 Nights = 90

STR Tax Due(\$3.00 per **Bedroom** per night) 90 x \$3.00= \$270.00

In the Total Tax Due line enter \$270.00

For online filing using the Eservices portal (using the example above)- enter the total number of rooms let 90.00 and the system will return \$270.00 due.

****If reporting room tax for any STR installment prior to January 2026 the rate is \$3.00 per night****
