Campostella Bridge Rehabilitation Project

Upcoming traffic pattern changes

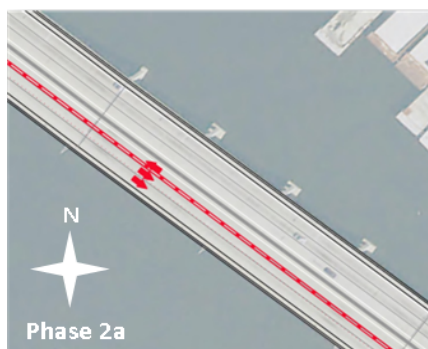

NORFOLK, VA – The City of Norfolk is making improvements to the Campostella Bridge. This rehabilitation project will address and repair major structural components and protect the bridge from deterioration. Construction will begin on Monday, Nov. 6.

Construction is scheduled Monday through Friday from 7 a.m. to 5 p.m. Off-duty police and flaggers may assist with traffic. Motorists should expect alternating lane closures and intermittent traffic stoppages. Alternating lane closures and traffic shifts will remain in place 24/7. Traffic lanes approaching the bridge will taper and merge. The project is scheduled to be complete by December 2024.

The project will repair key structural deck components, install a new latex modified concrete overlay and apply weatherproofing to deck elements. The scope of work also includes structural repairs to expansion joints, curb, sidewalk and railings and new reflective lane markings.

*Phase 1 (Duration approximately three months):
Inside lanes on northbound and southbound
bridges closed. Outside lanes on northbound and
southbound bridges open.*

*Phase 2a (Duration approximately six months):
Northbound bridge closed. One lane northbound
and two lanes southbound open on southbound
bridge.*

*Phase 2b (duration approximately six months):
Southbound bridge closed. Two lanes northbound
and one lane southbound open on northbound
bridge.*

Project updates will be posted on electronic message boards near the project site, media alerts, norfolk.gov and Nextdoor. Find full details on the project and sign up for project update emails at www.norfolk.gov/5115/Campostella-Bridge-Rehabilitation.
